ANONYMITY AND SECURITY ARE ESSENTIAL IN WEB 3.0.

PEOPLE HAVE BEGUN TO FORGET THE TRUE PURPOSE OF
BLOCKCHAIN.

ABOUT PROJECT

Blockchain was originally a tool for secure and anonymous payments. Then it became a tool for making money because of its volatility. Now it's in a time when everything is controlled everywhere. There are a huge number of projects that take advantage of the former glory of blockchain and cheat people and steal their money. There is no learning community in today's world that will allow web 3.0 users to increase their knowledge, secure their identity online and save their digital assets. Our project aims to give the world a platform where everyone can get the necessary knowledge, check unknown projects for scams, share their knowledge in cybersecurity. And all this will be accompanied by payments for participation. And the final point will be to create your own anonymous secure blockchain and cryptocurrency wallet. And yes. All our token holders will be able to exchange them for a new token in the new anonymous and secure blockchain.

-People need the 21st century's Guy Fawkes.

Short timeline

A very brief timeline showing the main stages of the project

Tokenomics

Tokenomics of the Moriarty ///M3GA COIN

- Total Token Supply: 4 trillion Moriarty (///M3GA)
- Token Distribution:
 - 1. ICO (Initial Coin Offering):
 - - Amount of Tokens: 1,200,000,000,000 M3GA
 - - Percentage of Total Supply: 30%
 - - Description: Tokens allocated for the initial coin offering aimed at raising capital from public investors. These funds will be utilized for financing the development and marketing initiatives of the project.
 - 2. Development and Marketing:
 - - Amount of Tokens: 1,600,000,000,000 M3GA
 - - Percentage of Total Supply: 40%
 - - Description: Tokens allocated for the ongoing development of the project and marketing efforts, including promoting the project and attracting new users.
 - 3. Development Team:
 - - Amount of Tokens: 600,000,000,000 M3GA
 - - Percentage of Total Supply: 15%
 - - Description: Tokens intended for the development team will be issued with a vesting schedule and a cliff to ensure long-term motivation and retention of key team members.

- 4. Reserve:
 - - Amount of Tokens: 400,000,000,000 M3GA
 - - Percentage of Total Supply: 10%
 - - Description: Reserve tokens for future use in necessary operational, strategic, or contingency needs.
 -
- 5. Bounties and Airdrops:
 - - Amount of Tokens: 200,000,000,000 M3GA
 - - Percentage of Total Supply: 5%
 - - Description: Tokens for marketing campaigns, bounties, and airdrops designed to stimulate the community and attract new users.
 -
- Use of Funds:
 - - Research and Development: 50% of the funds raised during the ICO will be allocated to the development of new technologies and enhancement of existing protocols.
 - - Software Development: 30% of the funds will be used to hire experienced developers.
 - - Security and Audit: 10% of the funds will be directed towards ensuring blockchain security and conducting code audits to detect and eliminate potential vulnerabilities.
 - - Community and Partnerships: 5% of the funds will be invested in developing the community and seeking strategic partners.
 - - Education and Outreach: The remaining 5% will be allocated to organizing educational events and campaigns to raise awareness about the benefits of the project.
 -
- Unlock Schedule Post-TGE:
 - - At TGE: 5% of the total tokens will be unlocked immediately to provide initial liquidity.
 - - Cliff Period: There is a 3-month cliff following TGE during which no additional tokens will be unlocked.
 - - At TGE + 1 Month: Post-cliff, 5% of the tokens will be unlocked.
 - - At TGE + 2 Months: An additional 5% of the tokens will be unlocked.
 - - At TGE + 3 Months: Further 15% of the tokens will be unlocked, totaling 25% of the tokens unlocked by the end of the third month.
 - - Vesting Period: After the initial 25% unlock, the remaining tokens will vest linearly over 24 months, ensuring a gradual distribution to prevent market flooding and to maintain a vested interest from all parties.

WHITEPAPER

Whitepaper: Moriarty ///M3GA Coin

Introduction

The ///M3GA coin is an innovative cryptocurrency initiative designed to accelerate the transition to Web 3.0, enhancing cybersecurity and transparency within the cryptocurrency space.

Mission

To accelerate user transition to Web 3.0, ensuring they are educated, secure, and supported throughout their journey.

Project Objectives

1. Create an Educational Platform for Web 3.0: Develop a platform where users can learn how to use Web 3.0 and protect their personal data and digital assets through interactive lessons in VR, web browsers, and mobile platforms (Android and iOS). The platform will feature practitioners as instructors, not just theorists.
2. Develop the Antiscamus Platform for Identifying Scam Projects: Build a platform based on AI to analyze and identify scam projects in the cryptocurrency field using more than 100 criteria. This platform aims to make Web 3.0 and blockchain technology safer and not viewed as a scam.
3. Build a Community and Foster Partnerships: Mobilize a community and establish partnerships to support and expand the project.
4. Develop a Proprietary Blockchain and Cryptocurrency Wallet: Create a blockchain and wallet to enhance transaction security and seamlessly integrate with our educational platforms.

Tokenomics

- Total Token Supply: 4 trillion M3GA
- Token Distribution:
 - ICO: 30%
 - Development and Marketing: 40%
 - Development Team: 15%
 - Reserve: 10%
 - Bounties and Airdrops: 5%

WHITEPAPER

Use of Funds

- Research and Development: 50% of the funds will be allocated to developing new technologies and enhancing existing solutions.
- Software Development: 30% of the funds will be spent on hiring experienced developers and creating software solutions, including educational platforms and scam detection systems.
- Security and Auditing: 10% of the funds will be dedicated to security enhancements and comprehensive auditing.
- Community and Partnerships: 5% of the funds will be used to build and sustain community engagement and to establish strategic partnerships.
- Education and Outreach: The remaining 5% will support educational campaigns and outreach programs.

Unlock Schedule Post-TGE:

- At TGE: 5% of the total tokens will be immediately unlocked to provide initial liquidity.
- Cliff Period: A 3-month cliff post-TGE during which no additional tokens will be unlocked.
- Post-Cliff Unlocking:
 - At TGE + 1 Month: 5% of the tokens will be unlocked.
 - At TGE + 2 Months: An additional 5% of the tokens will be unlocked.
 - At TGE + 3 Months: Further 15% of the tokens will be unlocked.
- Vesting Period: After the initial 25% unlock, the remaining tokens will vest linearly over 24 months to ensure sustained engagement and commitment from all stakeholders.

Roadmap

1. ICO Preparation and Launch: Mobilize resources and commence the public offering phase.
2. Cybersecurity Education Platform Launch: Roll out the comprehensive educational platform.
3. Scam Detection Platform Development: Develop and launch the scam identification tools.
4. Community Engagement and Partnership Development: Strengthen the community and secure strategic partnerships.
5. Blockchain and Wallet Development: Create and implement a dedicated blockchain and secure wallet system.

Conclusion

The Moriarty ///M3GA coin represents a unique blend of respect for historical innovation and a proactive approach to the challenges of modern cybersecurity and cryptocurrency transparency. We invite you to join us in achieving these ambitious goals and making a significant impact in the technology world.
